## Hacks For Your Life

I recently learned a new card trick, you could call me a Jack of all spades. Make your life easier with this handy list of life hacks.

- Sanitize Legos or other small items by putting them in a laundry bag in the dishwasher.
- Non-gel white toothpaste and an old toothbrush will get your white sneakers looking like new. Rub in toothpaste with the brush and let sit for a few minutes before wiping off.
- If your wooden dresser drawers aren't sliding smoothly, rub a candle against the skids as a lubricant for the wood.
- Fix a light scratch in your wooden furniture by rubbing a walnut over the scratch, rub in the oil with your fingers then use a soft cloth to buff the area.
- Use fluffy socks on your hands to clean your blinds. Your hand will be able to get into all the nooks and crannies in the blinds and add a spritz of multi-purpose cleaning spray for extra oomph.
- If your table has a wobbly leg, glue a small piece of synthetic wine cork to the bottom to fix the wobble.
- If you struggle with your clothes falling off the hangers, apply a short strip of hot glue to the top arms of the hanger. The rubber-like dried glue will keep your clothes in place.
