Tumble Dry Low

We're helping you air out your dirty laundry today with these tips for getting your clothes clean.

- If you don't have time to press your shirts or pants, hang them in your bathroom while you take a hot shower. The steam will help release the wrinkles from your garments.

- Don't count out old fashioned laundry bar soap. We know lots of moms with kids in baseball who swear by [Fels-Naptha](#) to get those pants white again.

- [Dryer balls](#) can help reduce static, soften clothes and shorten drying time by preventing clothes from getting tangled or twisted up.

- Skipping the heat of the dryer and using a [dryer rack](#) can help extend the life of your clothes. With Utah's dry climate, clothing made from synthetic fibers like polyester, nylon and spandex dries quickly.

- Adding a half cup of white vinegar into the fabric softener dispenser can help soften your fabrics, neutralize odors and remove soap residue.

- Think about using your washing machine for more than just clothes. Backpacks, gym bags, and tote bags can all be freshened up in the washing machine. Throw in your plastic shower curtain with several towels for maximum scrubbing power. Clean up that spill you got on your oven mitt or potholder. Toss stuffed animals into a delicate cycle.
